

Family & Heritage

Established in 1840, we are a fifth generation family business with a rich history and a passion for beds that runs through our veins.

Farm

Our 300-acre farm is just 18 miles from our Leeds factory, where we rear our prize sheep and grow our own hemp and flax to provide us with 100% natural fibre fillings.

Craftmanship

At Harrison Spinks we nurture time-honoured skills and traditional bed-making methods, with our highly skilled craftsmen.

British

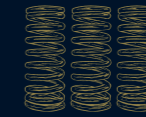

We're proud of our British heritage, maintaining our Yorkshire roots through our farm, factory and woodland and always supporting local businesses whenever we need a helping hand.

Harrison Spinks
The True Bedmakers

Sleep Innovators

Innovation is at the heart of everything we do, forever pushing the boundaries of engineering principles, to develop truly ground-breaking technology that changes the way we sleep.

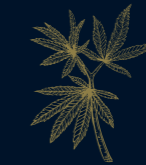

Luxury

Our customers expect and receive luxury, comfort and craftsmanship from our products, ensuring you get your most luxurious slumber.

Natural

When it comes to crafting a great night's sleep, we believe natural fillings are best, that's why we use a variety of natural fibres in our mattresses.

Sustainability

Our vision is to be world leaders in sustainable comfort innovation. Our efforts to protect our environment are not only widely recognised in the industry, but also with two Queen's Awards for Sustainability.
